

Appendix II

Roll of Honour

This roll of honour is an attempt to record all Imperial Service Troops who laid down their lives in the First World War, whether killed in action, died of wounds received in action, died of an accident, the relatively few who committed suicide and the even smaller number who were murdered by comrades in arms, or the many who died of disease serving in inhospitable environments. It is based on the cemetery or memorial records of the Commonwealth War Graves Commission (CWGC), supplemented by details of the nature of death where it has been possible to determine such information from either unit or Headquarters war diaries. It should be borne in mind, however, that even the CWGC records are incomplete. This is not a criticism of the CWGC; but for the efforts of Fabian Ware, the first Director General of the Imperial War Graves Commission, later to become CWGC, it might never have been possible to identify all those who have been recorded. A number of entries will be found in this Appendix of names recorded in war diaries as having been killed in action, or initially missing in action but subsequently confirmed by a Court of Inquiry as having been killed, and yet no record can be found of them on the CWGC database. Some are listed in Army Headquarters war diary casualty returns but do not appear in their own unit war diaries. The number of times a unit war diary entry reads 'Nothing to report' or 'Routine', when it is known that the unit was involved in an action on a particular date are too numerous to count. It might have expected that the loss of a unit soldier would have merited a mention. They are identified by NOT TRACED under the heading Cemetery/Memorial. A word of caution is necessary, however, about taking such entries at face value. For example, No. 692 Sepoy MIAN JAN KHAN of the Rampur Infantry was reported as missing in action on 11 March 1915 at Msambweni, East Africa, as noted in Army Headquarters 'B' casualty appendix, Volume 9, Appendix 69. In August 1915 this was amended to killed in action as a result of the deliberations of a Court of Inquiry and reported as such in Army Headquarters 'B' casualty appendix, Volume 13, Appendix 31, repeated in Volume 14, Appendix 13. He did not appear on the CWGC database (and does not now appear in this appendix) but the reason for that is determined by a much later entry in Army Headquarters 'B' casualty appendix, Volume 25, Appendix 118 dated 27 November 1916 in which it is recorded

2 For The Honour of My House

that he had re-joined his unit having escaped from German captivity as a prisoner of war. In some cases NOT TRACED entries have been cross-referenced to some probable cases of double reporting but otherwise, for those still listed as NOT TRACED, it can be taken that, despite extensive research of all surviving casualty lists, they have not been further identified and therefore remain something of a mystery.

Key to cause of death:

KIA Killed in action

MIA Missing in action

DW Died of wounds

DD Died of disease

D-POW Died while Prisoner of War, cause of death not necessarily known

Name	Rank	No.	Date of death	Cause of death where known	Country/Theatre	Cemetery/Memorial	Authority
