

Wars of the Roses 3D artillery

Instructions

Make the boxes A and B and the axle C. When the glue is dry, cut the axle C in half cutting out the white strip. Fold G and F and glue enclosing postcard to stiffen. Starting at the short bit of the 'L', roll the barrel round a thin knitting needle, finishing with the long barrel as a curved open shape. Roll hubs E and cut in half. Wheels made as the usual card sandwich. Glue H to the bottom of trail A and add the axles, gluing the open end to marks on A and bottom to H. Assemble the rest as the diagram.
